## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 1-7 are allowed.
2. The following is an examiner's statement of reasons for allowance: Claims 1-7 are allowable since certain key features of the claimed invention are not taught or fairly suggested by the prior art. In claims 1, 5, and 7, "when the memory element holds one of two values, the light-emitting element is in an electrically disconnected state between one of the m driving lines and one of the n scanning lines, and when the memory element holds the other of the two values, the light-emitting element is in an electrically connected state between the one driving line and the one scanning line". The prior art of record singularly or in combination fails to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
